

FIGHTING GAME
UNIVERSITY

Oh Come, All Ye Faithful

Here, we help others along the path to fighting game literacy. Think you've got what it takes? An encyclopedic knowledge of a completely useless set of terms? There are people out there that don't know the first thing as they get into fighting games, and it's our job to keep them from getting lost along the way. The more the merrier, right?

We've been in the biz for over 30 years. Our founder played a test version of Street Fighter as a kid. No, no numbers, just Street Fighter. One hell of a pedigree, but we back it up with a good work environment and VERY adjustable hours to suit whatever lifestyle you may lead. Let's beat ignorance's ass together, shall we?
